## THE MAIN DIFFERENCE

The main difference between Social Bite and the rest is that we donate 100% (*every single penny*) of profit towards solving social problems and 25% of our work force is made up of previously homeless people.

When you choose Social Bite, it is not only a great reflection on your business and your Corporate Social Responsibility (CSR) Values, which we are sure your staff and clients will appreciate, but your business will also be *directly benefiting people less fortunate* than yourself.

**A more fulfilling lunch.**
